Branch: Computer Science and Engineering

CPI: 8.78

CBSE XII | St. John's English Medium School, Kharsia

2018

Percentage: 86.2%

PROJECTS

English Dictionary

AUGUST 2021

- Built a website which uses a free [dictionary API](#) which allows you to search for an English word and provides information about it such as phonetics, definitions, synonyms etc.
- Parsed JSON data provided by API and displayed it in formatted manner.

Tasks

JULY 2021

Tasks is a simple responsive web application. It is a To-Do list app which lets you create, manage and delete tasks. This project was a part of learning front-end development.

I have mainly focused on the front-end. It is styled using basic CSS.
